1. Parks is game for the Ellison parking lot. They want to put a picnic table and kiosk near the lot and they will supply the fencing and above. Parks wants us to maintain it. (weak). What does it entail to maintain a parking lot? We are not plowing snow, shut the lot in the winter. Time line, should be pretty quick.
2. Trail conditions – Fraidy cat bridge and two posts for Fraidy Cat and Jimmy Thang. Overhand trimmed on bridge. There is a tree down on Sidewinder and the road by the pond. Trail posts are sitting on no boats for stunt ahead. Bear Valley Post. Spankies C7 drop thing that was rebuilt needs another half day of work. Lead up is a little swampy.
3. Parks might have \$1K for Silver Star and Kal Park. Buy some mesh for the stunts eg fraidy cat bridge. Roughly \$2/foot. Stucco wires also would work. Also, buy posts/signs for the parks.
4. Kiosk is at AJ's, in rough shape it needs to be stained. Should be put at the bottom of no-boats.
5. Mark's question – are we meeting the expectations of the park agreement. It is vague so we are OK and parks is happy that we are maintaining the area.
6. New bottom of Twista, need to close the old one.
7. Kevin would like a plan developed for Cousins Creek. Showed Kevin from parks the new trail. He wants to see a bigger vision for the park. Peter flagged the area above and Kevin liked it as a short alternative for people who don't want to come down to the beach. Need to get a map that shows the riparian zones so we can see where we can and can't develop in the park.
8. Tent for Sunday – Stacey, Mark, Andrew, Cynthia and Brian to help out
